

TIPS TO MAKE YOUR TOUR A GREAT EXPERIENCE

- ✔ Wear shoes which you do not mind getting dirty and wet (while crossing river)
- ✔ We discourage the wearing of flip-flops. Open sandals or sneakers are suitable.
- ✔ At certain parts of the river hike you will encounter water which may be 18 inches deep.
- ✔ Take water with you for the hike into the jungle and along the river. Stay well hydrated during the tour.
- ✔ Wear sunscreen. You may also wish to pack bug repellent for the hike into the jungle.
- ✔ Make sure your phone is fully charged (we will provide free pics and vids one day following the tour)
- ✔ We recommend wearing a hat during your tour to protect you from the sun.
- ✔ Free Karen Clothes for the day, Thai outfits which are light weight fabric, dry quickly and loose fitting.
- ✔ Eat a good breakfast, lunch is served around 12PM.
- ✔ You may wish to bring a bathing suit to wear under your Karen Clothes to swim in the river or waterfall.

Your guide's name is Tiger. Tiger is from a local tribe and has been working with the elephants for thirty years and speaks English.

This may prove to be one of the more interesting tours you have taken. You will be in the mountains of northern Thailand. This tour is an authentic experience, you will be experiencing the elephants in their natural habitat.

We do not force our elephants to do anything. Please realize these majestic creatures are very smart, we will need to travel at their pace. Your experience with the elephants will be 100% natural and will allow you to interact directly with these wonderful creatures. It really is amazing.

Thank you for supporting the Elephant Freedom Project.
